

REBIRTH TAROT

Ageless Wisdom of the Butterfly

Serena Zanardo

Artwork by Serena Zanardo

The term "Rebirth" encompasses multiple and profound meanings: transformation and change, end and beginning, life and death, journey and discovery, growth and choices, soul and body, magic and wisdom. The butterfly is the symbol of rebirth because it totally transforms during its existence. In addition, in various cultures it also represents the soul. And so, as an artist, Serena Zanardo has been inspired by nature, "Butterfly" has become the main character of this deck and its story unfolds through the major and minor arcana.

SEASONS TAROT

SEASONS TAROT

Experiencing Celtic Wisdom & Guidance

Serena Zanardo

Artwork by Serena Zanardo

The Tarots of the Seasons follow an analogy with nature through the Celtic Wheel of the Year and its celebrations. Through the myths, beliefs and legends represented, the cards accompany you in a journey to discover yourself and your potentiality, and the surrounding world and energies that animate the course of the seasons: from the mists of Autumn to the darkness of Winter, from the rebirth of Spring to the light of Summer. Each stage transforms us into the awareness that we are not separate from Mother Earth, but part of her.

SPIRIT WAVE MAJOR ARCANA

SPIRIT WAVE Major Arcana

Rich in Colour and Symbolism

Sara Stradi

Artwork by Sara Stradi

The Spirit Wave travels into the depths of the sea and rises up to the light like a wave that exposes itself to the world. This is how these Major Arcana were born, in this atmosphere of silence and profound listening, in evolution towards the image. The Tarot cards are a useful tool to become aware of our path of consciousness and in this regard they have been designed, with the intent to bring to light the positive aspects of each card. However, their upside down presentations may indicate the soul in slumber or a block that hinders us from proceeding.

SPIRITS OF HEAVEN AND EARTH

SPIRITS OF HEAVEN AND EARTH

The Shamanic cards of Healing and wisdom

Stefano Fusi

Artwork by Stefano Fusi

Stefano Fusi has done a thematic synthesis of the planetary shamanism, both in terms of thought and in imaginal terms, of astonishing interest and intensity, breadth and specificity. The papers group themselves spontaneously into eight different series, with different formational and informational prevalences and turn time characterizing. The underlying ideology they seem to privilege is primarily cultural (cultures anthropic humans) rather than psychoprojective (i.e. Jungianism and its environs). The cultural strand they refer to refer to and whose knowledge facilitates their access is that of the so-called New Age in its noble part, i.e. the Information and Cognitive Formations in fact very prevalent (if not prevalent) in the last 30 years.

SACRED NATURE

Magic, Symbols and Messages of the Living World

Stefano Fusi

Artwork by Stefano Fusi

80 artistic animal and nature cards from Stefano Fusi's original paintings and deep ecology experiences: the symbolic images for meditation, inner evolution, divination and healing. All nature is a symbol, a source of knowledge and health. We recognize ourselves as a conscious part of nature by reflecting ourselves in every animal, every plant, every mineral, every element: each contains a message for us and a healing power to guide us to health, balance and fulfillment. Animals, plants, minerals, air, water, fire, earth, and heavenly bodies show us how to heal wounds, find and share well-being and harmony, and evolve according to our aspirations. Natural symbols offer us simple, direct and accurate keys to our personality, our current condition, and developments in our lives.

THE POWER OF SYMBOLS ORACLE CARDS

THE POWER OF SYMBOLS

Sacred Images for Meditation and Divination

Stefano Fusi

Artwork by Stefano Fusi

Symbols are the signs that reveal and perpetuate the unlimited universe in our world and in our common life. They reveal meanings beyond those obvious to the senses and to our rational sphere. They exist before we can imagine or think about them: like genes and DNA on the physical plane, symbols pre-exist us, they carry with them the original instructions of life. They exist in nature and we have then encoded them to express in perceptible and comprehensible forms the essential forces that structure existence since the beginning. They are a synthetic map of the motions of what we call energy.

NAIADIS® LIGHT CARDS

NAIADIS® LIGHT CARDS

Four Elements Daily Wisdom

Nadia Forte

Artwork by Diana del Grande

After twenty years as a masseuse Nadia Forte develops and patents the bioenergetic massage Naiadis® thus starting a new adventure focused on the study of the human body that never forgets anything, as it often tells very well the personal story of each of us. Traumas, dissatisfaction, unfulfillment, create in fact psychosomatic tensions that are manifested in the body causing energy blocks, then stiffening and friction at the physical level. These blocks are to be considered "armour" that slowly form a "rusty shell" that limits our daily life in every sphere and on many levels. Naiadis® light cards seek to help relieve these tensions, to liberate and strengthen the person and to open him or her to self-awareness.

THE 22 JEWISH LETTERS

An Alchemic Journey to Awaken Your Inner Child

Emanuela Ricci

Artwork by Emanuela Ricci

The 22 letters are an invitation to share their dance of love. Thus they allowed the author to be radiated by giving herself in these paintings. Beyond the painted images, there is a force of love that comes to seek us, to guide us, to heal us, for there is no healing without the newfound consciousness of the One. Open to these letters all the doors of your being, in a state of calm and inner stillness, just as when as children we played creating, inventing and fantasising. Listening without any anticipation or expectation of receiving anything.

Luca Sansone

Artwork by Luca Sansone

The Miracle of Nature Tarot is a deck of Major Arcana which takes inspiration from the world of Nature, Fairies and flowers. The author has created and painted with watercolours this fairy deck thanks to his connection with the Little Folk, the family of entities and energies that we know as fairies, elves, mermaids, goblins, and gnomes. After mediumship training over the years, these entities have made their presence and messages so strong and clear that over a short period of time, they took shape into this Miracle of Nature major arcana tarot.
